

PRODUCT

OxiClear

DESCRIPTION

Acidic gel for removal of metallic oxide stains. Designed for adhesion on vertical surfaces.

ADVANTAGES

Allows a controlled cleaning process of rust marks on render and masonry. Will work on all other metallic oxide stains and other substrates : Copper and white or brown lead oxides in particular. OxiClear will clean old leadwork from it's toxic powdery surface. The product is not corrosive enough to present a risk for other building materials or for the operative when carefully applied and rinsed.

PACKAGING

5 litre.

TECHNICAL DATA

Composition : Mixture containing phosphoric acid, surfactants, thickeners and corrosion inhibitors.

Viscous, pale brown.

Odour : slightly acidic.

VOC content : 0.0g/litre.

Density : 1.27 g/cm³ (20 °C).

pH: 0.4

Flash Point: Non-flammable.

Solubility in Water: Completely miscible.

APPLICATION INSTRUCTIONS

Do not dilute.

Apply by brush.

Apply a thick coat. Leave to dwell up to 5 minutes and agitate with a soft brush to renew the active interface. Leave to dwell enough to have the desired effects and rinse.

Renew the application if necessary.

APPLICATION CONDITIONS & LIMITATIONS

Do not mix with oxidising agents, bleach or alkaline materials.

Avoid contact with metals as this creates corrosion and the evolution of hydrogen.

Substrate / air temperature : + 5°C to + 35°C.

Substrate moisture : Generally dry.

Coverage per litre of gel : 2 m².

Avoid release in the environment.

STORAGE & CLEANING

Stable under normal conditions of use and storage.

Keep in a dry ventilated place (between 0°C and 30°C).

Storage: 12 months following the production date when kept in the original unopened container.

Immediately after you have finished clean all tools and equipment with water.

RECOMMENDATIONS & POST TREATMENT

Post treatment : Treat against further corrosion.

Wear protective gloves, and eye protection whilst using the product.

HEALTH & SAFETY

If burnt, will generate phosphoric acid fumes and the oxides of phosphorus.

Respiratory Protection: No special respiratory protection equipment is needed.

Hand Protection: Wear domestic gloves.

Eye Protection: Wear safety goggles.

If swallowed: Do not induce vomiting. Contact a doctor or a specialist.

KEEP OUT OF THE REACH OF CHILDREN

Please refer to Material Safety Data Sheet for Health & Safety.
